 1. **With a vote of 13 yay- 0 nays – 1 abstain, the Faculty Senate brings to College Council the following recommendation: Require/encourage/bring through the proper channels a requirement that a non-coach meet with all athletes to explain the 10/20 time commitment rules. This should be done each semester (or built into a Canvas "course" students have to "take" each semester).**
 2. **Recommend an anonymous reporting system so athletes can report when their coaches are abusing those time commitments. This would be no different than the fact that any student can report a faculty member for breaking codes of conduct in the classroom.**
